PROFILE DESCRIPTION

I specialize in helping businesses streamline operations, increase lead generation, and enhance overall efficiency through the strategic implementation of AI-driven workflows, chatbots, and automation systems. My practical expertise in n8n, AI agents, and end-to-end workflow automation enables me to create scalable solutions that reduce manual effort by 50–70% and significantly improve ROI.
Core Expertise:
- n8n Workflow Automation → Expertly connect 30+ applications, including Google Sheets, Gmail, Slack, Shopify, and Instagram.
- AI Chatbots & Voice Assistants → Develop intelligent chatbots for websites, WhatsApp, and other custom platforms.
- AI App Prototyping → Quickly prototype AI-powered applications, such as presentation generators and AR/VR prototypes.
- Sales & Marketing Automation → Implement AI-driven lead generation, email campaigns, CRM enrichment, and abandoned cart recovery strategies.
Why Clients Choose Me:
✔ Proven Experience: Successfully completed 20+ automation projects, including Meta Ads automation, Instagram auto-posting, and AI-powered assistants.
✔ Scalable & Reliable: Design systems that reduce costs and optimize workflows.
✔ Clear Communication: Provide transparent updates, ensure on-time delivery, and offer comprehensive post-project support.
✔ Cross-Domain Knowledge: Expertise in AI, LLMs, workflow design, sales funnels, app prototyping, and AR/VR integrations.
I partner with startups, e-commerce businesses, agencies, and enterprises to implement automation solutions that drive measurable growth. Whether it's replacing costly Zapier workflows with n8n or building AI chatbots that improve sales conversions, I deliver tailored automation solutions designed for scalability.
If you're looking to save time, cut costs, and gain a competitive edge with intelligent automation, let's discuss your next project.
